

History and Geography

We will be discussing people that have gone into space. We will be learning and using appropriate vocabulary. We will be looking in particular at Neil Armstrong as the first man on the moon. We will be using the role play area which is going to be a lunar landscape.

Class 1, Year 1
2017-18 Spring term 2
Theme: Out of this world
We will be learning about space and famous astronauts. We will be learning key vocabulary such as lunar, solar and names of the planets in our solar system. As a class we will be visiting Eureka on Thursday 22nd March 2018

PSCHE

This half term we will; be learning about how to get on with others. We will talking about our own feelings and listening to what others have to say. We will have a weekly election about who should be the class star of the week.

ART/D&T

We will experiment with different colours, textures and forms to create our own alien landscape. We will look at the work of other artists and use their ideas as a stimulus for our own. We will paint in response to a variety of space music.

Dear Parents/Carers,
This newsletter details the topic areas that your child will take part in during the afternoons whilst they are in Class 1. English and Maths will be taught separately by Mrs Brooke-Mawson in the morning although the skills learnt in these core areas are continually reinforced throughout all of the subjects. Please come and see myself or Mrs Brooke - Mawson if you have any questions or comments regarding your child's learning.
Thank you.

SCIENCE

Our science topic for this half term is all about seasonal changes. We will be observing changes across the four seasons. We will learn about the weather associated with each season and how the length of the days vary. We will also make careful observations of nature and the outside world taking care to notice any changes we see. We will learn about the months of the year, sequence these and learn which seasons they belong to.

Music

In music this half term we will be learning a selection of songs which link to our topics. We will also continue to practise our listening skills along with developing our work on rhythm and beat.

ICT

We will make a group power-point about space. We will also use the paint programme to create an alien.

Religious education

In RE this half term we will be learning about Easter. We will become familiar with the story through looking at symbols associated with Easter such as eggs and cards. We will learn what Christians believe about Jesus and why many people admired him.

Cross-curricular English & Maths

Please see separate sheet provided by Mrs Brooke Mawson.
