SCIENCE

Within science the children will be focusing on forces and magnets. They will compare how objects move on different surfaces progressing on to comparing and grouping together a variety of everyday materials on the basis of whether they are attracted to a magnet, and identify some magnetic materials. The children will observe and carry out investigations as to how magnets attract or repel each other and how magnets attract some materials but not others.

PSHCE

In PSHCE we will be talking about responsibilities, learning from experiences and how we can show support towards others using our strengths.

RE

In RE, we will be looking at
'Why do we care?' The children will explore similarities between themselves and others. We will read stories that reflect upon how people care for others.

PE

We are very lucky to have a specialised PE coach who will be teaching us PE this half term. Our PE days have slightly changed. We will now be taught PE
on a <u>Monday and Thursday</u>. Please ensure your child has their PE kit in school on these days.

MUSIC

In music, we are going to listen to rhythms within sounds. We will then create our own rhythm using musical instruments.

Class 2 Summer 1 2018 YEAR 1

<u>Our topic:</u> **This Half Term, our topic is Out of this world!**

Within topic this half term, we are very excited to continue to learn all about space and astronauts.
We will be looking closely at the different planets and their features including the sun and moon.
We will learn all about the first moon landing by Neil Armstrong and we will discover how astronauts travel in rockets and survive in space.

Art and Design/Design Technology - Within art and design, we are going to be using primary and secondary colours to paint images with tints and textures. We will also use our paint skills to create repeating patterns.

ICT- In ICT we are going to create a profile all about 'Flat Stanley.' We will use images and text to create an information sheet all about the character from our class book.
