

**SCIENCE**

In science we will be developing scientific thinking through games and investigations. These games and investigations will incorporate everything we have been learning about this year. Some example of games are what's in the box, odd one out, mini beast lotto and scattergories.

**PSHCE**

In PSHCE we will be looking at growing and what new opportunities and responsibilities come with this. We will also be looking at loss including moving home, losing toys, pets and friends. We will also consider ourselves and celebrate our strengths as well as offering constructive feedback to others.

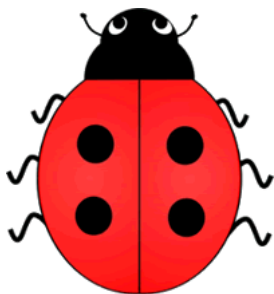

**RE**

How can we look after our planet? Children will learn about the views of different religions/beliefs regarding the origins of the world. They will consider the ways in which religious and non religious individuals and organisations show care and concern for the planet.

**MUSIC**

Exploring timbre, tempo and dynamics. This half term we will put together everything we have learnt this year in music. Children will be able to compose and make their own song using a variety of different musical instruments.

**Class 2, Year 1**  
**The Mighty Mini-Beasts**  
**Summer 2017 2<sup>nd</sup> Half Term**

Our topic work this half term will be centred on the theme of 'The Great Outdoors' In addition we will study:

**PE** - We will once again have PE coaches leading our PE sessions this half term. PE is still on a Wednesday and Thursday this half term. Could all children ensure they have their PE kits in school on these days.

**ICT** - In ICT we will be working on multimedia. In groups we will be using i-pads and laptops to create our David Attenborough type documentaries.

**Art and Design** - In Art and Design we will be looking at the work of Andy Goldsworthy and creating our own work inspired by him.

**Design and Technology**- This half term we will creating our own wheelbarrows! Children may be asked to bring materials to help them do this such as cardboard boxes.

**Geography**- In Geography we will look at different places around the world. We will study hot and cold places and how the weather can affect the choice of clothes and jobs that people have around the world.
