

Hanging Heaton C of E (VC) J & I School – Working at home work

Class/Year Group: Year 2

Week commencing: 1.6.20

Dear Parents/Carers,

Please find below activities to support your child's continued learning at home. It is important during this time that we try to build on the learning that has taken place in school although we do realise that it is impossible to replicate school whilst home learning. The more children can keep up with their learning, the easier the transition back into school will be. We appreciate your support in this.

Area	Monday	Tuesday	Wednesday	Thursday	Friday
Reading	At least 15 minutes	At least 15 minutes	At least 15 minutes	At least 15 minutes	At least 15 minutes
English 	Imagine a castle or find a picture of one in a book or online. If you were standing at the top of this castle, what could you see? Write a description about the castle - the towers, the turrets, the bridges, the fountains, the flags that can be seen. Think about how you can use your senses in your description.	You might want to write about the people who live in this castle and what they are doing. Think about kings and queens, princes, princesses and knights. Are they practising for battles, getting ready for banquets or walking in the gardens? Draw your own picture of castle scenes.	Write a short story about what could happen in an adventure in your castle. Don't forget punctuation and wow words.	https://kids.classroomsecrets.co.uk/category/year-2/year-2-gps/ Have a go at the Spring Revision Set 5 activities.	Hand writing and spelling practise. Practise your spellings and ask someone to test you on them. Copy sentences from a book to practise your best handwriting.
Maths 	Watch https://kids.classroomsecrets.co.uk/category/year-2/ Make Equal Groups Grouping Tutorial and then have a go at the Making Equal Groups Game.	Use something that you can share into equal groups with your toys. Use coins, counters if you have them or even pieces of dried pasta. Starting with different numbers how many can you share fairly (all get same amount)?	Go onto Mathletics and complete the grouping activities set.	Can you make up some word problems that involve grouping problems - remember to draw a picture if it helps?	Practise your mental maths challenge and ask your family to test you on it. Keep chanting your 2x, 5x and 10x tables.
Foundation subjects 	Let's have a trip around the world. https://www.bbc.co.uk/programmes/p055pn6y Can you compare your family with that of Angel in Peru? Write a description of your family.	Go outside and do an Awe and Wonder walk - use all your senses to enjoy the outdoor space. Lie on the ground and look up. Touch, listen and smell. Where did it all come from? Describe what you found most beautiful and why.	https://www.bbc.co.uk/bitesize/clips/z8s87hv What should we do with our rubbish? Make a poster to explain what we should do and why?	Ask a grown up if you can use some clean safe rubbish to make a model. It can be of anything you like. Think how it can be stuck together, can you make it move?	Who helps us in our lives and what do we have to be thankful for? Make a list of all those people who make our lives better and write a thank you letter explaining how much we appreciate them.

This week's spellings are: dear, deer, know, no, road, rode, right, write, passed, past

This week's mental maths challenge is: quick fire addition and subtraction to 30. How fast can you answer your mum or dad?
