

## Maths support at home

We appreciate that the way we teach maths nowadays may be very different to the way that you remember being taught. Below are copies of booklets, which identify the different expectations in each year group to help you see what your child will be learning whilst in this class.

If you are having any issues with helping your child with any homework due to the these differences please in the first instance contact the class teacher who will be able to support you. This can be in person, or via Seesaw and the teacher will be happy to send you further supporting information to help.

In addition, there are a number of websites, which provide very useful 'How to' video direction, which you may find useful, some of which are as identified below:
